

ECCT Chairman

H Henry Chang

For 33 years, the ECCT has acted as an economic and cultural bridge between Europe and Taiwan. The chamber plays an essential role as an advocate for European businesses in Taiwan, connecting its 900-plus members from 400 companies with local industries and with key policymakers in government. Today this alliance is stronger than it has ever been.

The election of its first Taiwanese Chair, H Henry Chang, marks a significant milestone for ECCT as European businesses continue to be the most significant group of foreign investors in Taiwan, accounting for more than \$59 billion in direct foreign investments. Henry has seen first-hand the growth and evolution of ECCT over the years. He joined ECCT as a member in 2003. He was elected to the Board in 2008 and became an Executive Board Member in 2012. Since 2019, Henry has held the position of Vice Chair. He is the 22nd person to serve as Chair of the Chamber.

As Chair of ECCT, Henry brings both deep expertise and unique cross-cultural understanding of doing business in Taiwan. His early connection to Europe began with a study grant to the Universitaet Regensburg in Bavaria, Germany. He has since built a 25-year law career specialising in cross-border investments and corporate compliance in diverse industries including media, technology, automotive, pharmaceuticals, and tourism.

His work advising European businesses in Taiwan began in 1993 when he joined leading global law firm, Baker McKenzie. Founded in 1949, Baker McKenzie is known for being a "Firm of Firsts", having had Christine Lagarde, the current President of the European Central Bank, as its first female global chairperson from 1999 to 2004, and being the first international professional advisory firm to become a Swiss Verein in 2004. In addition to his law career, Henry has taught technology law as an Associate Professor at Soochow University School of Law (東吳大學法學院) since 2008. He is a member of the Taipei Bar Association and is a founding member of the Taiwan chapter of Accademia Italiana della Cucina di Legazione.
